

# Mithical Creatures

## Mermaids

# Introduction

---

- Mermaids are mythical creatures that live in the sea.
- They have a human upper body and a fish tail.

# What do mermaids look like ?

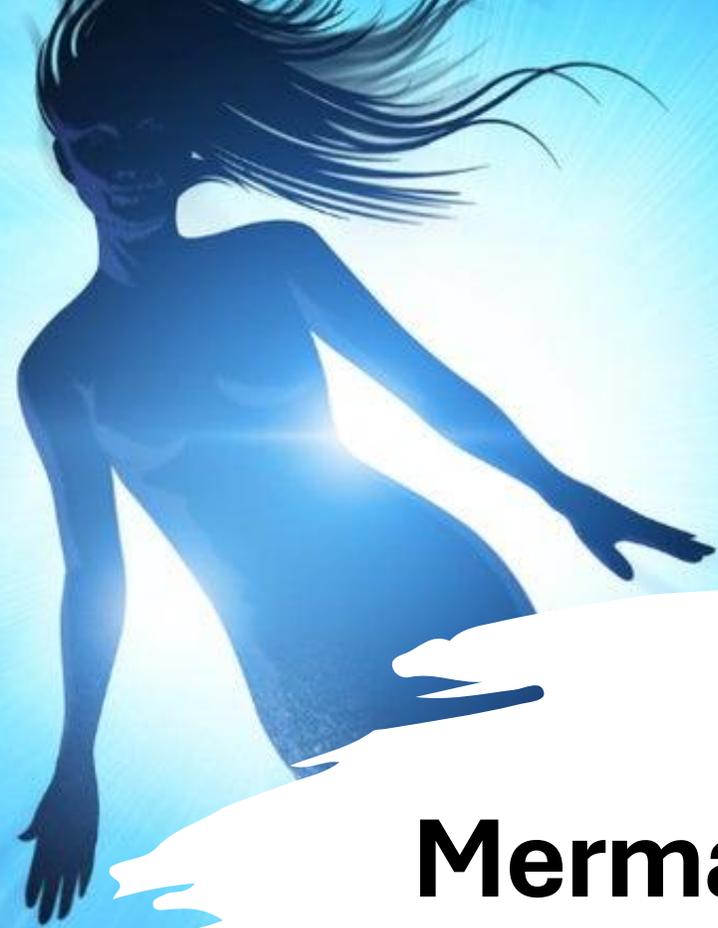

- They have long hair, a shiny tail, and can breathe underwater.
- They are beautiful and can sing magical songs.

# Where do they live?

- Mermaids live deep in the ocean.
- Some legends say they have underwater kingdoms

## **Mermaid powers**

- Swim very fast
- Talk to sea animals
- Control water

## Conclusion

- Mermaids represent magic, adventure, and the mystery of the sea.

A mermaid with long, flowing hair and a shimmering tail is swimming in the water. In the background, there is a large, ornate castle with many towers and spires. The scene is set in a dark, teal-colored environment, possibly underwater or at night.

Thanks for  
whatching !!!
