

A large, iconic acacia tree stands in the center of a vast, open savanna landscape. The tree has a thick, gnarled trunk and a wide, flat canopy of green leaves. The ground is covered in dry, yellowish-brown grass. In the background, there are low, rolling hills under a clear blue sky. The overall scene is a classic representation of the Serengeti National Park in Tanzania.

**Serengeti  
national park in  
Tanzania**
